Supreme Court Decides Case Against Union of Stonecutters.

HOLMES AND BRANDEIS DISSENT FROM VIEWS

Sutherland' Majority Opinion Finds Labor Action Violates Antitrust Laws.

(By the Associated Press.)

Labor unions and their members may be enjoined for refusing to work when their acts constitute a restraint of interstate commerce, the Supreme Court held yesterday in a case brought by the Bedford Cut Stone Co. and 23 other corporations against the Journeymen Stonecutters Association of North America, its local unions and their of-

nions required members to refrain from working on "unfair" stone, and the Indiana limestone companies affected by the order sought in Federal ourts to enjoin enforcement, contending that it restrained interstate commerce in violation of the Federal antitrust laws. The lower Federal courts refused the injunction.

Sutherland Gives Oninion The Supreme Court, in an opinion by Justice Sutherland, declared that "the rule requiring members to refrain from working on 'unfair' stone was persistently adhered to and effectively enforced against petitioners' producers, in a large number of cities and in many

States. "The evidence shows many instances of interference with the use of petitioners' stone by interstate custom and expressions of apprehension on the part of such customers of labor troubles if they purchase the stone," the

Justices Holmes and Brandels dissented. Taking sharp issue with the majority. Justice Brandels declared if refusal to work can be enjoined by Congress, "then it created by the Sherman law and the Clayton act an instrument for imposing restraints upon labor

In another decision the court had, he stated, permitted "capitalists to combine in another corporation practically the whole shoe machinery industry of the country."

The importance of Redden's story, from the standpoint of his friends in the American Legion, is that, to them, at least, it disproves the theory that he went to Great falls to commit suicide. First of all, they point out, his machine was pointed toward washington, and, second, he had to abandon his car because it was marooned in the mud.

While Redden's story provided food for speculation, the mystery as to Capt. Kopper's whereabouts remained as reabouts remained as Theories continued to

# LECTURE ON CAPITAL

Civic, Patriotic and Educational Organizations Listen to Address by C. C. Long.

CHARM IS POINTED OUT

Civic organizations, patriotic clubs, educational bodies and a large number of private citizens gathered last night in the Central Community Center, Thirteenth and Clifton, streets northwest, to hear Charles Colfax Long, of this city, give an illustrated address on "Washington, Our National Shrine." District Commissioner Proctor L. Dougherty presided and introduced the speaker.

speaker.

The meeting, attended by approximately 1,800 persons, was in the nature of a spontaneous tribute to the National Capital by residents of Washington, and this spirit was emphasized by the repeated applause which greted the lecture of Mr. Colfax. United States Marshal E. C. Snyder, chairman of the Community Center Council; J. G. Yaden, president of the Federation of Citizens associations; Mrs. Howard L. Hodgkins, of the board of education; Funeral services for Josiah S. Tyree, 76 years old, retired business man, chemist and horseman, who died Sunday night in his home, 5201 Sixteenth street northwest, will be held tomorrow at the residence at 11:30 o'clock. The Rev. ### ACTIVITY IN NICAHAGUA DEFENDED BY LENROO

Made Necessary by Monroe Doctrine, Former Senator Tells Georgetown.

FOR ANOTHER ELECTION

gua was defended by former Senator Ir rine L. Lenroot, of Wisconsin, speaking last night at the Georgetown university

foreign service school in support of the administration's policy in Latin America, on the ground that the Monroe doctrine was directly involved.

Declaring that Great Britain and Italy had sought protection for their nationals in Nicaragua under the Monroe doctrine. Lenroot asserted that the United States faced the alternative of assuming that responsibility itself, or letting those nations do it.

"No American ever would have consented to permit Great Britain to land a force in Nicaragua," he said, "so the Monroe doctrine is directly involved in this controversy. If we owe a duty un-

other countries, certainly we owe it to American citizens in Nicaragua to pro-

American citizens in Nicaragua to protect their lives and property."

Mr. Lenroot declared that "if the United States can disavow responsibility of protecting the lives and property of its citizens in a foreign country, then the time will come when the rights of American citizens will be trampled upon everywhere and we might as well abandon foreign commerce."

He defended the election of Diaz and contended the United States could not have recognized Sacassa under any rule

### WAITING

"Prograstination is the thief of time," a saying old that few would dare to doubt. It's proven true in every land or clime. It steals the thing we cannot do without. Yet hours lost, though valued they should be, some reckon hours lost, though valued they should be, some reckon hardly worth a thought, and through their thoughtless lives do lavishly waste the time too precious to be bought. Procrastination, too, may dollars lose, for waiting often proves a costly play to those who always hesitate to choose and constantly postpone from day to day. To those who do in April buy their coal and save an honest dollar by the act, there comes a real contentment to the soul denied the man who's always holding back.

One bitter wrangle just had been concluded when Senator James A. Reed, of Missouri, chief of the Ford counsel, asked Sapiro, who was under cross-examination for the tenth day:

"Did you have anything to do with the organization of the Onion Growers association in Indiana?"

"Yes," replied the witness.
"Now, so as not to waste any time on that, did you get some fees out of it?" asked Reed in a sarcastic tone.

### Scarcity of direct sunlight dangerous hence babies need Cod-Liver Oil

Babies' bones and teeth cannot grow normally without the beneficial influence of sunlight, or its substitute Vitamin D.

But it is almost impossible for an infant to get enough direct sunlight. Even window-glass and clothing filter out the helpful rays.

To avoid damage, or to repair it if begun, baby doctors and health clinics insist that all infants get good cod-liver oil regularly.

Resistance to disease also is built up by good cod-liver oil. It helps to keep children healthy and aids them to grow normally.

The unusual effectiveness of Squibb's Cod-Liver Oil is due to its high vitamin content. Its health-promoting elements have been so skillfully preserved—that small doses, taken regularly, are adequate.

# U.S. COURTS CLOGGED BY DRY LAW CASES **ALL OVER COUNTRY**

20,000 Awaiting Trial Are Caught in Jam, Due to Deficiency Failure.

15,000 MORE EXPECTED TO ADD TO CONGESTION

Prospect of Tremendous Dockets Held Menace to Enforcement Cause.

By WALTER '1. ATKINS.
Federal courts in every State today are clogged with Volstead law cases, awaiting trial. Review of the dockets by the Department of Justice discloses more than 20,000 separate dry law cases now pending. These all involve the more serious offenses under the Volstead law. All are classified as "jury trial cases," involving manufacture, sale, transportation of unlawful possession of intoxicating liquors. The congestion exists in practically every Federal court, but, of course, is more pronounced in some of the recognized wet strongholds.

Federal court, but, of course, is more pronounced in some of the recognized wet strongholds.

The 20,000 untried cases now have been caught in a veritable log-jam, along with thousands of other cases, criminal and civil, with absolutely no early prospect of being adjudicated. The backing up of this conglomerate mass of dry law litigation presents a serious situation to the Department of Justice and the Treasury Department. Still more serious, however, will be the added accumulation of new liquor cases that will pile up in the Federal tribunals during the next six months, most of which will be similarly tagged as unfinished business.

A condition almost without precedent was created in the Federal courts when Congress failed to pass the second deficiency bill, providing emergency funds from the Treasury to enable the courts to function normally with jury trials during the rest of the fiscal year. The senate fillibusterers, fighting to perpetuate the slush fund investigating committee, were primarily responsible because the deficiency appropriation bill, together with other important legislation, was sidetracked in the dying hours of the last Congress. The fill-busterers incidentally included some renowned wets.

Few Jury Trials Soon.

Few Jury Trials Soon.

There will be few jury trials of Volstead law cases until after summer is over. The Federal courts, in fact are not expected to get down to real business on them until early fall, and such hearings as are held will be confined chiefly to the trial of offenders who have been languishing in jails. When new appropriations for the next fiscal year become available the Federal courts throughout the United States will be in the midst of their summer recess terms.

When jury trials are resumed in the courts, it is conservatively estimated when jury trais are resumed in the courts, it is conservatively estimated by government officials that no fewer than 15,000 new cases, and in all likelihood an even larger number, will reach the courts, further congesting the already overloaded dockets. Officials emphasize this as a minimum estimate. It takes into account the slowing up in enforcement all along the line until readjustments are completed in the prohibition bureau. Heretofore about 60,000 Volstead law cases have been filed in the Federal courts each year. A fair average has been 5,000 a month. Three or four years ago the average was much higher.

Most of the alleged offenders in pending cases are at liberty on bond. Approximately 2,000 are in jails, without funds, to provide bonds or employ counsef. Many in this class have been so held for periods of from six months. it is conservatively estimated rnment officials that no fewer

so held for periods of from six months to a year. The Attorney General is endeavoring to work out a plan in conjunction with the district attorneys

Government officials now have an acute realization of what it all means. With the courts not functioning, time and effort will be wasted and enormous sums with 55,000 or 40,000 Volstead law cases to be tried, is a most menacing one to the cause of enforcement, in the view of government officials. The fact is that, the courts find it difficult to dispose of current litigation of all kinds, which has grown in recent years far beyond the capacity of the courts, already undermanned by too few The bootleggers will hail this amount happy condition for the courts already undermanned by too few long the provided the realization of the courts. punishment. Long delay always operates in favor of the defendant. Material witnesses for the government mysteriously disappear, or the evidence built up by prosecutors breaks down for a variety of reasons.

The Department of Justice discloses that 16,511 Volstead law cases were dropped by Federal district attorneys in 1926, because of "insufficient evidence," or evidence of such filmsy character that juries in all probability would not convict.

Last year's record of cases nolle prossed may be eclipsed this year. Prosecutors have instructions not to go to trial with cases where there is only a slight chance of conviction. The disposition of the courts is to grant motions for a nolle pros or a compromise verdict in groups of weaker cases, wherein trial upon insufficient evidence would merely take up the courts' time and waste government money.

Study of the dockets of pending cases reveals the significant fact that 50 per cent of them are in five States—North Carolina, New York, Kentucky, Georgia and Maryland. Here is how the 20,000 cases awaiting trial are distributed: Alabama, 420; Arizona, 148; Arkansas, 246; California, 572; Colorado, 62; Connecticut, 10; Delaware, 14; District of Columbia, 125; Florida, 775; Georgia. 246; California, 572;; Colorado, 62; Con-necticut, 10; Delaware, 14; District of Columbia, 125; Florida, 775; Georgia, 1,379; Hawali, 16; Idaho, 81; Illinois, 279; Indiana, 91; Iowa, 138; Kansas, 937; Louisiana, 112; Maine, 47; Mary-land, 862; Massachusetts, 134; Michi-

(By the Associated Press.)
Airplanes from now on must carry
license tags similar to those on automobiles. In line with recent legislation by Congress, the commerce Department yesterday issued regulations governing markings for aerial

The letter "C" in front of the license number will signify a com-mercial plane, the letter "8," a plane pelonging to a State, the letter an experimental plane and a straight number, a private plane.

Air pilots will be divided into four

classifications, ranging from the grade of private chauffeur to the prade of private chautreur to the highest distinction of "transport pilot," a term applied to the driver of a big machine for long distance carriage of goods and people. Besides there is a commercial pilot grade, and a "limited commercial pilot" grade, the latter permit going to a pilot competent to take up passengers for short trips around an air field.

Dry law enforcers are worried over court congestion. In the majority of new cases, defendants will exercise their right of demanding jury trials and remain at liberty on bond. New cases will take their place on the dockets behind cases previously listed, and may or may not be tried for a year or more. Government officials and prosecutors know there are too many loopholes through which defendants escape, to be comfortable in the situation as it now confronts them.

Leaders in the Smith movement are afraid that the two element—active opposition and loss of prestige, will cut what chance Smith may have had of making some progress in the South immeasurably and deprive him even of the opportunity which he might have had of picking up some votes from below the Mason and Dixon line in the later stages of the 1928 convention.

### De Pinedo Blaze Held Accident by Embassy

(By the Associated Press.)

The Italian embassy last night added the weight of its opinion to that of Commander de Pinedo that destruction of the Italian's hydropiane at Roosevelt Dam, Ariz., was an accident and not the result of an antifascist plot. "Any reports that the plane was deliberately destroyed by a political plot," an embassy statement said, "are flatly denied by the very fact and circumstances as described by all witnesses, including Commander de Pinedo. The Italian embassy had occasion to speal by long distance telephone to Commander de Pinedo and received assurances from him that he certainly was satisfied as to the accidental origin of the disaster."

Gen. Bei Charges Planes Fly Over Chinese Territory and Excite Masses.

Soviet Sino War Expected: Russians to Quit Harbin, Foreseeing Clash.

(Special Cable Dispatch.)

Shenghai, April 11.—Wild rumors in circulation in Shanghai tonight, but not verified by local Japanese officials, are to the effect that the Japanese cabinet has decided to mobilize the regular army forces for service in Chins. Local Japanese military officials, while stating that the mobilization is a possibility, believe that the report is premature.

Japanese residents at Hankow passed a resolution today warning the Japanese people not to be misled by the nationalist propaganda that the Japanese government should abandon the present peaceful policy and dispatch a punitive expedition to China with the object of smashing the autocratic administration organized by a group of persons influenced by the mobs.

With reference to the local situation, Gen. Bei today declared he had demonstrated his ability to control the situation and maintain order and that

demonstrated his ability to control the situation and maintain order and that he was doing his best to continue, but that the authorities of the international settlement and the British troops were acting in an exceedingly provocative manner and making the job most difficult.

Planes Over Chinese Territory. Gen. Bei called particular attention to the recent occasion when British airplanes flew over Chinese territory, including the staff headquarters, area-nal and Chinese fleet. He stated that nal and Chinese fleet. He stated that on two recent occasions British troops had conducted raids on Chinese territory outside the settlement, once for the proposed arrest of Indian seditionists and once for searching a Chinese school, in which students were driven out, several were injured and the national flag was torn down and carried away. He said that the stationing of British

He said that the stationing of British defense lines with artillery and machine guns outside the settlement was particularly provocative, but it must not be overlooked that the international settlement itself is Chinese territory. With reference to what is believed to be the "British provocative action." Gen. Bei declared that the British are exciting the Chinese masses to disorder, even the Chinese masses to disorder, even the Chinese troops being affected, thus rendering the general's task particularly difficult. He said "it seems certain that the powers, particularly the British, are trying to provoke trouble in order to justify the present large bodies of foreign troops on Chinese soil. The nationalist forces demonstrated that they are strong enough onstrated that they are strong enough to cope with the political and military situation internally, but if certain pow-

ers continue to use provocative measures against the nationalist movement, things may finally get out of hand, in which event the powers can not hold China responsible." To Confer on Campaign.

To Confer on Campaign.
With reference to the military situation, Gen. Bei admitted that the nationalists met reverses in the fighting north of the Yangtze river, but that they were still holding the northern bank and Gen. Chang Ksi-Sek will hold a military conference at Nanking tomorrow for the purpose of definitely deciding a campaign.

The soviet charge d'affaires at Peking today notified Wellington Koo that the entire soviet staff at the embassy will withdraw shortly, leaving one official for the purpose of winding up the business.

gation made of injuries suffered by both sides.

Chen's position with respect to the injuries to foreigners in the Nanking incident will not seek to deny needlessly the testimony of the American consul and others who were in a state of great agitation and fled for safety, but he will be in possession of reports from eye witnesses and well known American writers denying intimations that the incident was "an organized and systematic attack upon foreign lives." Had there been such an attack, there would have been no foreigners left. Chinese maintain, because there was no effective way of protecting them.

Chiang Kai Shek, commander in chief of the nationalist armjes, whose written spology is called for in demand No. 2. has already before him the commanding officer of the nationalist forces which were at Nanking about the time of the disturbances. The understanding here is that evidence is at hand to confirm the foreign reports that some nationalist soldiers in uniform were involved, but there is said to be nothing to lend color to the idea of an organized attack, or to place the blame at the feet of ranking nationalist officers in Nanking.

They are directed rather toward those influences, both foreign and Chinese, which made themselves responsible for the Nanking outrages by their activities in seeking to break up

### THE NOTE TO THE CANTONESE.

The consular representatives of the United States, Great Britain, France, Italy and Japan yesterday presented identical simultaneous notes to Eugene Chen, at Hankow, and to the representative of Gen. Chang Kai-Shek at Shanghai, demanding satisfaction for the outrages committed by nationalist troops at Nanking on March 24. The demands made are three: First, adequate punishment of the commanders of the troops responsible for the outrages; second, apology in writing from the commander in chief, including a written undertaking to refrain from violence and agitation against foreign lives and property, and third, complete reparation for damages. The notes conclude as follows:

Unless the nationalist authorities demonstrate to the satisfaction of the interested governments their intention to comply promptly with these terms the said governments will find themselves compelled to take such measures as they nsider appropriate.

The people of the United States will not be pleased with this note, which associates the United States with other powers in what is substantially a commitment of joint action against the Chinese in case of further violence and agitation against foreigners.

The protection of American lives, and not the protection of "foreigners," is the only proper concern of the United States government.

Strong antipathy is manifested in China against certain foreign peoples, but there is little or no anti-American feeling. Americans have suffered injury as an incident of the civil war in China. The United States is in duty bound to protest against these outrages upon Americans; but for the sake of other Americans in China, and for the sake of peace between this country and China, the United States should have carefully refrained from associating its interests with those of other nations, thereby calling down upon this country and its citizens the hatred that is felt toward others.

The Cantonese "government" has not been recognized by the United States. It has no status as a state. The protest been lodged with the Chinese government, in order that it might be held responsible for ultimate reparations. The vague intimation that unless the Cantonese comply with the demands "the said governments will find themselves compelled to take such measures as they consider appropriate" can have no terrors for the Cantonese unless the governments are prepared to use force; and certainly the sending of an American punitive expedition against the Cantonese army would be strenuously opposed by the American people.

Secretary Kellogg has made a serious mistake-a mistake that may have appalling consequences-in associating the United States with other powers in making demands upon the Chinese. The Chinese people, both north and south, can not but regard the United States as arrayed with the other powers against them. The lives of Americans still in China may pay the forfeit for this blunder. They will be classed from this time forth with all other foreigners, to be expelled or murdered without distinction of nationality.

The United States in dealing with China has nothing in common with other powers. Its interests are not their interests, and its purposes are not their purposes. They may resort to force if they wish—the United States can not resort to force without arousing a furore of protest from the American people.

### JUDGE SCHULDT'S APPEAL.

That filibuster in the Senate which resulted in the shelving of the second deficiency bill leaves the police court of the District in the same embarrassing condition in which every Federal district court finds itself. From now on until the end of June there remain no funds with which to pay fees of jurors, and without fees jurors can not be empaneled. Judge Schuldt asks a ruling from the comptroller

with the same of t

for the services of jurors until the end of the year. He has been "turned down" by the commissioners, who decline, very properly, to take the risk of being accused of violating the law prohibiting the incurring of liabilities by any officer of the government in excess of appropriations made by Congress

Judge Schuldt, in his appeal to the comptroller general, sets forth "that the payment of compensation to jurors is a necessary incident to the enforcement of a constitutional guarantee and can not be defeated by the antideficiency act on which the commissioners

According to the judge there are approximately 13,000 cases pending, and new demands are being made at the rate of ten a day. "If, through the lack of funds, these jury trials are not disposed of, a terrific congestion will result in the jail, as many of those who demand a jury trial will be unable to secure bond." says the judge. But no such presentation of facts is likely to move the comptroller general if he is convinced, as he appears to be, that he has no legal right to decide otherwise than against the appeal of Judge Schuldt.

Why not follow the lead of Judge Hazel, of the Western district of New York, who has opened a bargain counter whereat guilty bootleggers who are willing to own up are rewarded by reduced fines-\$100 instead of \$250 or \$300? Judge Schuldt might find perhaps 25 per cent of his prisoners willing to 'fess up if proper inducements are held out.

### GOVERNMENT JOBS.

There has not been a general examination of applicants for positions in the railway mail service for three years past, and to provide against the depletion of the eligible list the civil service commission announced that applications would be received until April 9 from those desiring to enter the service. Altogether 35,000 men have signified their desire to compete for positions in the railway mail service. To facilitate the examination of this vast army the commission is sending out cards to all whose requests were received within the specified time. These cards will admit the bearers to the examinations, which will be conducted in 600 cities throughout the country, including Washington.

The commission does not regard the great number of responses as an indication that there is an unusual condition of unemployment throughout the country, as railway postal examinations are popular everywhere, and it is pointed out that at the last, which were held about three years ago, there were 26,000 applicants.

However, with 35,000 to be examined for the eligible list of the railway mail service and 25,000 others who wish to enter the prohibition bureau, the commission sees an unusually busy time ahead, not only for its examiners in the 600 cities specified, but especially for those in the headquarters of the commission in Washington, who must review the papers sent in from those cities.

Out of the 25,000 taking the prohibition examinations 2,500 will be chosen at once. But of the larger number who are to pass the ordeal for the railway mail service there is no assurance that any considerable number will be appointed even if they pass tests But all vacancies that may occur during the next few years will be filled from those who prove their eligibility at the examinations that will start on April 23.

### SPREAD OF ALCOHOLISM.

Dr. Wayne B. Wheeler will have to give ome attention to the Japanese newspaper man who is evidently sending out antidry propaganda. The London Daily Mail prints a statement from its Tokyo correspondent in which he declares, on the alleged authority of the head of the Japanese silk cultural laboratory. Mr. Y. Nakai, that silkworms which are allowed a ration of alcoholic stimulant do better work and more of it than those worms which are deprived of such rations.

According to this correspondent Mr. Nakai, becoming alarmed over the possible shortage in the crop of mulberry leaves, heretofore the only food on which the silk makers of Japan against the Nanking outrage should have were fed, undertook experiments to find a substitute. In the course of these experiments he composed a mixture of wheat flour and saki, which latter is a Japanese wine, containing more than one-half of 1 per cent of alcohol by volume. The writer insists that the insects actually "turned up their noses" at every other substitute offered. But when this saki-soaked flour was offered the worms made absolute gluttons of themselves. On the other hand, just as soon as they found the supply exhausted they began to spin silk at a rate that violated all the rules of the silkspinners' union. They did not insist on stopping when the 5 o'clock whistle blew, but kept right at it. Nor was that the only result. They produced a better grade of silk and are much happier and healthier than formerly, and it is noticed that they are remarkably free from troubles of their digestive organs, while the new food has solved the problem of how to kill the harmful bacteria that created havoc among them in the past

> Still other benefits are reported as following the change of diet of the silkworms, the nost important of which is that the labor of gathering mulberry leaves has been reduced 60 per cent, thereby releasing many thousands of the female population of Nippon to more lucrative industry.

### AN INSTITUTE OF HEALTH.

The American Chemical society, in session at Richmond, is advocating the creation by the government of a national health institute. The plan contemplates a comprehensive campaign against what are described as the unconquered enemies of human health. Under the supervision of the Treasury Department, and the administration of the surgeon general of the public health service, it is proposed to erect a suitable structure and to create adequate fellowships for individual scientists who have shown marked proficiency in research and investigation relating to the diseases of mankind. The facilities of the institute would be available to health authorities of States. counties or municipalities for purposes of instruction and investigation.

This is a dream not ant to materialize in the near future, but one which is fully worthy of consideration. Without question it is one of the fundamental duties of government to guard the health of the people. For this purpose the Federal government maintains a pubgeneral as to his right to incur an obligation lic health service. For this purpose States zens of Washington.

and cities spend part of their income for com munity control of disease. It is not possible to measure the return from these expenditures, but it is worth a great deal in dollars and cents.

A healthy citizen is an asset to the community. The sick one is a liability. Preventive medicine is not an old science, as such matters are measured, but already it has come to be recognized as one of infinite value. If the government, through an institute of health, could cooperate with the States in preventing disease it would be money well spent

### REGULATING COMMISSION MERCHANTS.

One of the most serious conditions which farmers have had to meet has been that arising from the shipment of produce to auction houses, commission merchants and dealers in markets remote from the farms. This is especially true of consignments of fruits and vegetables. Complaints have been numerous from shippers who, instead of receiving satisfactory returns for their produce, have been called upon to pay freight charges because of the alleged bad condition of consignments.

Glutted markets and slow moving freight trains have undoubtedly contributed largely to conditions warranting the receiver of the produce in demanding pay from the shipper instead of payment to him. On the other hand, investigation has proved conclusively that dishonest traders have preyed upon the growers through false statements as to market conditions and spoilage of consignments. It is because of this dishonesty on the part of some middlemen that marketing associations have been organized among producers of fruits and vegetables.

The frauds practiced upon farmers led to the enactment of the law known as the "Produce agency act," which was approved by the President in March and will become

effective on July 1. Under this act it will be the duty of the Secretary of Agriculture to prosecute a commission merchant or any other agency if the Secretary comes into possession of evidence that fraud has been committed. Heretofore, when such matters have been brought to his attention, he has endeavored to arbitrate the differences between the producer and the agent.

It is believed that the enforcement of the new act will go far toward clearing up a situation which has been so disastrous to growers of fruits and vegetables.

### ENGLISH WIDOWERS.

Although the prayer book of the Church of England has just been revised, the revisers appear to have overlooked an amendment that should have been made. In the last pages of that book are set forth tables for the guidance of those seeking matrimony according to the laws of the realm and the rites of the church. Until 1907, when parliament removed the inhibition, marriage between a widower and the sister of his deceased wife was not permitted. After a fight that lasted for several decades the law was enacted, and the prayer-book's declaration that "a man may not marry his deceased wife's sister" was

stricken from the rubric. For the last twenty years it would appear that the Englishman's right to marry any lady of his choice, provided there was no nearer relationship between them than that of a widower and the sister of his late wife, has not been questioned. But it has just been discovered that parliament has failed to remedy other defects in the prayer-book's tables, and that the poor Englishman is still barred from the right to marry the widow of his nephew, nor may he enter into wedlock with the sister of his mother-in-law by a first marriage.

However, he may, provided the lady is willing, marry his brother's widow, and if not content with that privilege he has the alternative open to him of visiting the United States, where there are a number of spinsters, as well as widows, who may be willing to listen to his proposal, especially if he happens to own a

The city traffic conference, attended by mayors and traffic experts of a score of American cities, will meet in Chicago this week, and it is expected that one of the chief matters for discussion will be the abolition of parking within congested areas. For more than a year students of traffic conditions have been advocating the theoretical merits of clearing all parked cars from business districts. Surveys in Los Angeles, Chicago and Cleveland have been introduced to prove that downtown parking restricts the use of about one-half the available street space and benefits less than 10 per cent of the motorists using these streets. Yet ordinances prohibiting business district parking have usually failed to materialize, and at least one attempt to clear away daytime parking has

Washington experimented with the plan during the Shrine convention in 1923. Even during this emergency period, when the streets were filled with scores of thousands of visitors, the blanket restriction against parking was subsequently held to be not particularly successful. A similar story is written in the reports one hears from Philadelphia, where

similar experiment is being conducted. The parking problem is of universal interest. It exists in even the smallest of American communities. The editorial page of practically every American newspaper, whether published in metropolitan center or cross-road village, makes frequent reference to it. Every one admits that something must be done, but no one, so far, has brought forth the solution. If the traffic conference can find a way to solve the problem its members can well afford to retire

Through the public spirit of four citizens-Mrs. Anne Archbold, John Joy Edson, John Hays Hammond and Frank J. Hogan-the Board of Public Welfare will be enabled to care for 468 juvenile wards until July 1, when government funds will be available. The \$40,-000 required for the maintenance of these children was included in the second deficiency bill which failed to pass the Senate. The advances made by private citizens, without interest charge, are to be returned when Congress replenishes the fund. The generosity of this act of relief is warmly applauded by all citi-

On Maple Sirup.

Ohio State Journal: However, we did not intend to say a word about the fritters. Our wandering pencil should learn to stay where the best thoughts of our mind are, the highest meditations of our better self-viz, on the maple sirup. Oh boy! that was maple sirup, the first vintage of the glad new year. The evolution of maple sirup, begun, no doubt, when geologic time was young, can go no further. Perimagine a tincture of the red bird's cheery whistle, the delicate and elusive scent of the first anemones, the breath of the first warm breeze wafted gently across fields but yesterday white with the snows of winter, and anything else of the kind one can think of, all tinctured into one gallon can, he will have a faint conception of what this maple sirup is. It made us think that after all, despite Kellogg, Lowden, Borah Chicago, the suicid? wave and the income tax, the world is very beautiful and the outlook very bright indeed.

### The Secret Is Out.

Kansas City Post: Now the secret 's out as to why the farmer of the East has shown so little interest in the efforts of his Western brother to obtain government aid for agriculture. The crop raiser of New England has suddenly discovered that it is more profitable sell hot dogs and temperance drinks to tourists passing his place than to invite sunstroke while pursuing the long and weary corn row.

The Health Fund. Baltimore Sun: A health expert has just been talking about "overdrafts on the health fund" so convincingly that one inevitably examines one's habits of life from the doctor's standpoint Late hours, overeating, lack of exer cise-why, doctors' bills ought mostly to be entered in the family accounts a "recreation," "food" and "travel (either street car or auto)." But there's one thought for the man who never plays. The cost of a breakdown is really a business expense, and presumably de ductible on the income tax return.

# Race Prejudice

-By ROBERT QUILLEN-

Do you think that statesmen of the better kind, cultured, polished debate on prohibition? President Butand broad of vision, have a race prejudice to suppress when they deal with other nations? You are mistaken. Race prejudice is found much lower down.

In the gray moss region of South Carolina, where the live oaks stretch their great limbs across the highway and the mocking bird sings all the year through, you may find many traces of the Old South.

Here are houses built 40 years before a gun was fired at Bunker Hill—houses built of hewn timber pinned together, with cypress lath cut to fit the length of a room and with ceiling boards fourteen and sixteen inches wide held in place by iron nails made by hand.

In these houses, preserving the fine manners, the limitless hospitality and the priceless furniture of another century are the descendants of men who kept slaves.

Now the rich flat fields, that are not bought but only inherited, are tilled by negroes who work on shares and are free. In numerous villages of this district these free men set aside the first

day of the year to celebrate their emancipation. Their buggies, their cars and their mules are decorated with bunting and ribbons and they parade down Main street behind groups of marching lodge men, and after the parade they listen to speeches, feast and play games.

The celebration costs money, and the negroes are poor. Wherefore they visit their friends, the white people who are descended from the 'quality," and ask for contributions that are gladly given.

Where, then, is this race prejudice so scathingly denounced by people who know little about it? It is in the heart of the white man still described by his black neighbor as "poor buckra."

The "trash" may be rich and educated now, but in a long-settled and less productive of perspiration to community they still are despised by negroes whose ancestors were slaves of the "quality." When races clash, it is dross that clashes-not the finer metal.

> All the world over, gentlemen treat gentlemen as gentlemen, whatever their race may be.

Americanism: Cussing the rich; trying desperately to get that way.

Zero in manhood?" Well, there's the one who says he might have een a success, except for his wife.

### LETTERS TO THE EDITOR.

The Butler-Borah Debate.

To the Editor of The Post-Sir: May I make a comment on the Borah-Butler a theory. It was that the eighteenth amendment ought not to be in the it. It was legislative in nature. But when President Butler came to tell why it was more legislative than other clear. The fact is the distinction is too filmy a distinction on which to run any political campaign. It concerns a mere theory, the theory being that our government through its Constitution can give no grants of power, but that it has limited itself as to the nature of the matter on which these new grants may be made. As a matter of fact, the Constitution says they may be made "to promote the general wel-

fare," "hich certainly is very broad. A French mind, loving governmental theory, might rear a campaign on this trapeze, but the Anglo-Saxon mind is not theoretical; it does not like filmy tiptosings as to whether there be a vast distinction between granting power to levy an income tax and granting power to stop the legalized liquor traf-

Borah talked the kind of talk that Anglo-Saxons like, not theory but fact. In effect he said, "Here is liquor, the curse of the human family. A sensible people naturally desires to curb this curse. It is a long fight, of course. B-t what will curb it as well as prohi-Nothing! Therefore, virile men who love your kind, r up your sleeves and create out of your own determination he government, both Federal and local, that will enforce the prohibition law.'

There you have the practical Anglo-Saxon, unconcerned with theoretical bent on finding the practical action There is no doubt that outside the mand a hearing, that President Butler's tion of both men was able.

Assessments in Washington. To the Editor of The Post-Sir: I

### SCHOOL GUIDANCE ASKED FOR STUDENTS WHO QUI

Officials Should Have Voice in Regulating Working Conditions, Educators Hear.

VOCATIONAL AID URGED

Responsibility for the "guided growth" of all children of school age whether attending school or not, shou be placed on the shoulders of school authorities, in the opinion of members of the commission on curriculum, department of superintendence, Nationa Education association, holding their annual conference at association headquarters here.

Dr. Charles H. Judd, of the University of Chicago, led discussion on this point at yesterday's session, advo-

this point at yesterday's session, advo-cating that school officials have a voice in regulating the working conditions surrounding children forced to aban-don school for economic reasons. Holding that the school "owes to the child" an opportunity to obtain air education, he advanced arguments in favor of night school extension. It was made clear that responsibility for "guided growth" did not extend to con-trol of the child's actions outside of school.

troi of the child's actions outside of school.

Further opportunities for vocational training, to equip for life those students not contemplating a college course, was favored by the commission, "not because of any wish to discourage college entrance, but because so many students do not enter college."

Subcommittees will be named at the concluding session today to investigate problems and contemplated changes in senior high school curriculum. The findings will be included in a yearbook issued at the February convention of the association in Boston. Members of the committee dined informally yesterday at the Hamilton hotel, and last night at the Cosmos club.

### PLAYERS OF MINER SCHOOL IN COMEDY

Dramatic Guild Makes Hit in Presentation of "The Country Cousin."

Country Cousin."

The Miner Normal School Dramatic guild, under direction of Miss Marguerite Thomas, scored a hit last night in the Miner auditorium with the presentation of Booth Tarkington's comedy in four acts, "The Country Cousin." Settings were in the country home of the Howitt's in Centreville, Ohio, and in a villa by the sea, affording a striking contrast between the simplicities and the worldiness of American life.

Ethel Easley, as Nancy Price, the country cousin, brought a sympathetic and highly poised interpretation to the characterization, set off by the airs and graces of the English gentleman of leisure, George Tewisbury Reynolds 3d, as played by Robert Syphax, with whom she was in constant clash until the denouement. Altoona Goodrich, as Eleanor, proved a charming ingenue, while William Payne, as Sam Wilson, her boy lover, a self-confident young American, gave realism to his role.

The cast included Klotha Spriggs, Wesley Speller, Dorothy Taylor, Myrl Jones, Lawrence Edelin, Gladys Booker, William Miner, Victor Labot and Waldowilliam Miner, Victor Labot

That he has not been heretofore if he probably all remember, of roast of beef and its ability to hang along into the week, and one reader had said that it was hard to dispose of easily or attractively. Today I am going to add to the column two or three recipes that will serve to use up the end of the roast of beef with which we planned our menu on Saturday for Sunday-recipes that will. I think, change this reader's opinion about the obsolete status of hash and its relatives.

First, may I call to the attention of our friends that this is Tuesday and that at 10 today we again have our Homemakers hour over the radio and that delightful music, as well as discussions on the subject of homemaking, will constitute a part of that hour. Today we shall take up the matter of buffet suppers during our hospitality talk and think a bit about the wisdom of marketing in the spring during the time devoted to the subject of cookery.

We shall give suggestions of dishes to be served and possibly some recipes as well.

Well.

A reader has asked me why children refuse to eat their food, and whether or not it is because they are fed too much, although she admits that her particular small boy seems to eat pitifully little and is actually underweight.

Children that are well and strong, Mrs. B, should be hungry, and if your youngster is loath to eat food you place before him, one of several possible things is the matter with him. Either he is badly spoiled and refuses to partake of his food just as he refuses to do any number of other things that you require of him, and because he has the habit of holding out against your suggestions and discipline, or he is not do any number of other things that you require of him, and because he has the habit of holding out against your suggestions and discipline, or he is not assimilating his food properly and has no hunger because of an internal discorder. If your son is obedient in other things and still can not be made to eat, you can depend upon it that the difficulty is a physical one. And if it is a physical one, you should consult not a person who deals in correct foodstuffs for the nourishment of a well body, but a physician who suggests foodstuffs for a sick body, and with his suggestions probably prescribes a medicine that will give even more rapid aid than corrective diet. If the doctor suggests a diet, as doubtless he will when he finds the seat of the difficulty, I shall be delighted to assist with the construction of the dishes prescribed in any way that I may. I would not feel that I was working within my realm, however, in attempting to diagnose the little boy's aliment when I am not a person experienced in all-ments.

After all, it is as the twig is bent that it grows, and if you wish your child to eat the good, well balanced meal with which you have supplied him more than you want to keep in his good graces, if you intend him to be obedient before anything else, whether or not he cries fiendishly and is generally obnoxious, and if you stick to just what you have demanded of him, however hard it may be on you, then your son will eat and gain weight, and be a pleasure to you in many ways nd be a pleasure to you in many ways Cut the cold lean beef in small cube

We have planned this substantial salad to draw this meal to a close and suggest that with the salad there be served toasted saltine crackers. The cucumbers are to be thinly sliced and let stand several hours in cold salted water, then served in French dressing.

But if the child is contrary and needs discipline, I should, if I were his mother, make a study of my own shortcomings regarding disciplinary measures, and school myelf, for I think we all agree, do we not, that bad children, who will not obey, are the direct result of incorrect upbringing and the fault of the parent rather than the small child.

Take a thick white sauce that, with the addition of the cubes of beef, will fill the cups in which the baking is to take place just two-thirds full. Add the beef to the white sauce and add also a few diced carrots if they are available. Season the whole with a bit of Worcestershire sauce, a few drops of onion juice, a bit of celery sait and sait and pepper to taste. This must be a quite thick mixture when the process is over, but be sure the flour in the sauce is well cooked. Butter the individual dishes and put enough of the mixture into each cup to fill it one-third full. Then break in a whole egg on top of this hot mixture and dot over the egg with generous pleces of butter and a small strip of two of canned pimento. Fill the other third of the cup with more mixture and grate a little American cheese over the top. Dash with paprika and bake for just ten minutes. Serve at once. Eggs are cheap at this time.

PULLMAN PIGS.

This morning I again ran into one of those travelers who are built on the lines of the Opic Reed fellow who was "always too much trouble to hisself." In the dressing room of the sleeper he had spread out his belongings. There were hair tonics, flesh foods, massage creams, shaving accessories, tooth-cleaning compounds and brushes of several kinds. I am sure he joined with Mencken in petitioning the Pullman Co. for a larger workbench in the men's dressing room.

Of course, such a man is selfish. He takes an unfair amount of troom and an unfair amount of time, but that form of social disorder is not the theme for this story.

Such men, including Mencken, come under the head of "This Believing World." They may not have faith in a religion or a Bible, but they have a based more on the use of aromatics.

BEAUTY EARNED.

Want to tell you about a woman, who, without being beautiful when weighed, feature by feature, is thought of as beautiful. The little lady is illusion-wise. She considers colors, line, lighting, the "amosphere" or the "meaning" of a dress, and carefully adapts these things to herself. She considers even mannerisms! Oh, but don't get the impression of artificiality; it is simply a self-sorting of the good and bad, the suitable and the illustited, the rejecting of the bad and the cultivation of the good.

Witness: While attending a current play, my friend was deeply impressed with the mellow quality, the roundness, the beauty of the voice of the famous actress who was in the play. I said before that this little lady is illusion-wise—she knew how much the voice contributes to the illusion of beauty, how much it can detract when it is harsh or shrill. And she knew, too, that each cigarette "jag" made a marked difference in the texture of her voice. The germ of an idea grew into a siege of introspection which, in turn, grew into a resolution! She didn't especially enjoy cigarettes; why did she smoke them? It wouldn't mark her as an unsocial soul simply because she didn't smoke; in fact, if she were marked by her abstinence, it would be for her good sense! Therefore, why not give them up—for her voice's sake? So ran her thoughts.

There is really little else to tell you. This woman stopped where she was with the smoking habit; she knows she is being benefited; and, as you can easily guess, she has won my greatest admiration.

GLOVES AND MANNERS.

DEAR Miss Singleton: At a summer morning church wedding, should the groom, best man and ushers wear gloves? Should the bride and matron of honor wear gloves?

B. A. M.

Gloves are not absolutely necessary, particularly in summer. Ushers usually wear them because it gives a certain finish to their costumes, and light gray is a favorite color. But in title they have finished the eat with it till they have finished the cut-up meat. Then they begin to cut more.

Gloves are not absolutely necessary, particularly in summer. Ushers usually wear them because it gives a certain finish to their costumes, and light gray is a favorite color. But in hot weather, and at an informal wedding, I see no reason for gloves. The bride and her maid-of-honor need not wear them, either; nor the groom and best man. The ring part of the ceremony is simpler without them.

Both a spoon and fork should go with the dessert plate. In the case you mention, I should leave the ice cream saucer on the plate and eat the cake, unless it were sticky, with my fingers. If it were a cake that had to be eaten with some implement, I should ask for a fork if one were not woulded.

# Paris-The use of ruffles is noticed

on many of the dresses in the current Paris collections this spring. Skirts with many ruffles in front and straight backs are frequently seen. Taffeta afbacks are frequently seen. Taffeta af-ternoon dresses and georgette or chiffon evening frocks quite often take this way of inserting the necessary fullness while retaining the smart straight silhouette.

Cyber presents a dainty evening model of cool green georgette creps in this style ornamented with a strip of strass embroidery. A darker green in set at the neck gives a pleasant effect.

Perhaps the most popular belt seen is the tailored kid of pale color to match the dress. Usually it has a plain buckle of silver. Belts for black costumes are apt to have buckles of brilliants. Pearls Being Worn

# Draped in the Hair

Pearls are now being worn by English women arranged as a head-dress with pendant ends. A popular method adopted is to wear rows of pearls bound across the front of the hair. The tassel ends hang in two long plaits over the shoulders.

### What's Behind Your Stock

Erie Railroad Company The Eric Railroad Co., which has been corganized several times since its in-ception, operates 2,325 miles of road exmarch of 1926, according to compilation by Lawrence Stern & Co. Although the March figures show a smaller total than the preceding month, they still are comfortably ahead of March last year. It might also be well to remember that February, 1927, presented the largest of any month on record with a total in new financing of \$662,103, 300. Contrasted with a year ago March figures show healthy gains in industrial, public utility, foreign and raliroad financing, and losses in tax exempt and real estate issues.

The figures for the three months period and comparative figures for 1926 follow:

### Simmons Renominated For Exchange Office

New York, April 11 (By A. P.) .- E. H H. Simmons, serving his third term as president of the New York Stock Exchange, today was again placed at the head of the ticket filed by the regular nominating committee. The elec-

lar nominating committee.
tion will take place in May.
Warren B. Nash was rei position on the governing committee to fill a vacancy, and Morgan Davis for a

CURB MARKET REVIEW.

New York, April 11 (By the Associated Press).—While a number of public utility and specialty shares displayed firmness on today's curb market, trading was in limited volume and prices on the whole were irregular. Operators continued to choose their favorites on special considerations ratherthan on news of any general character. Several new high prices were established in the utilities division, with United Gas Improvement among the leaders, crossing 100 for the first time this year. American Light & Traction touched 121½, and Northern States Power A 114½, both new peaks for the year. New Bedford Gas & Electric Light, the floating supply of which is limited jumped to a propost, later denuted funded to a propost, later denuted funded to a propost, later denuted control. American Celulose & Chemical common and preferred registered new maximum prices. Gillette Safety Razor was in heavy demand, and Tubize Artificial Silk made a further advance of 6 points to a new 1927 record high. Warner Brothers Pictures, on the other hand, suffered from selling pressure.

# on the other hand, suffered from sell-ing pressure. Motors were irregular. Marmon Mo-tors sold up 2 points, to 54½, while most of the other shares declined frac-tionally. Durant got down to 12 and closed at 12½, a loss of half a point on the day. Oll shares inclined, to heaviness on further gasoline price cuts. Carlb Syn-dicate duplicated its low record for the year, at 16. International Petroleum, on the other hand, was in fair demand.

NEW YORK COTTON.

New York, April 11 (By A. P.).—The cotton market was quiet, but generally steady today. An early decline in response to relatively easy Livespool cables was followed by recoveries on reports of further rains in the Mississippi valley, but the slight buiges were not fully maintained. After selling up from 14.28 to 14.35, July closed at 14.31. The general market closed steady, at many control of the control of the control of the control of the casier showing of the English market. May sold off to 14.08 and October to 14.54, net declines of 5 to 6 points on active positions, as a result of liquidation by recent buyers and little Southern selling. Comparatively small offerings were soon absorbed, and the midday market steadled up on unsettled weather reported in the central best, which served to increase the apprehension of floods in that section.

May advanced to 14.14 and October to 14.62 or about 1 to 3 points net higher, during mid-afternoon, but this buige seemed to meet some realizing or hedging, and the close was 3 or 4 points off from the best.

Private cables attributed the relatively easy showing of Liverpool to hedging and Bombay salleg. The therefore the control of the former market having been depressed by the liquidation of long accounts with the widening of the difference between Bombay and Liverpool, the former market having been depressed by the liquidation of long accounts with the widening of the difference between the two markets sufficient to show a profit on the straddie operations. Favorable reports from the domestic goods markets seemed to create no trading interest of consequence, and business during the greater part of the day here was quiet as indicated by the narrow fluctuations.

Exports for the day, 35,052, making 9,158,046 so far this season; port receipts, 20,909: United States port stocks, 2,248,798.

It was reported that the next statement of the Department of Agriculture on boil weevil emergence in the South would be published at the opening on Agril 13, but very

S OCRATES is considered by some the master whose incimaster whose incisive thinking and questioning initiated much of the world's ethical philosophy. Others think of him as a parasitic idler and improvident husband. Xanthippe, his wife, bemoaned the fact that his ideas brought the family more notoriety than bread.

And yet, though Socrates was never known to lift a finger to do any work, millions of men since have been inspired by the principles of his philosophy to achieve success and accumulate for-

The Best in Location and Building Character The prominence of tenants like Harriman & Co., and Seligman, of New York, who are occupying floors in the SECURITIES BUILDING, indicates the strategic value of its location. Responsible concerns, alive to the possibilities that lie in this location, will recognize these additional advantages: (1) A modern building finished last November, and managed by the owners, Wardman, Inc. (2) Association with the highest type of American business neighbors; (3) Abundance of daylight and not a foot of waste space; (4) a very nominal rental and partitioning of floor space to suit tenant.

The market again absorbed well heavy profit taking in recent leaders of the full campaign in industrial stocks, and this selling, continuing into the late trading, prevented that section of the list from making much further progress upward. sprinkled among fairly substantial net gains.

It was in various ways an eventful day from the financial point of view, both here and abroad. Domestic developments included, in addition to the marked stock market activity (the turn-lover was well in excess of 2,500,000 shares), a firming up in the money market, more cuts in gasoline prices and renewed buying of git-edged bonds. In England there was Chancellor of the Exchequer Winston Churchill's budget speech and in France the announcement that negotiations had been completed for the return to the Bank of France of 458,000,000 gold france held by the Bank of England as security against the loans of 33,000,000 pounds, made during the war and for repayment of that loan.

As for stock fluctuations here, until the last hour gains and losses were fairly evenly divided, but the late spirit by Atchison, which jumped more than 3 opints, to a new high, and held a 3½ gain, joined in actively by several other rails, gave the whole list a rather firmer appearance at the end of the day.

firmer appearance at the end of the day.

In the morning confident buying of the high-priced stocks again was in evidence, and at the outset that imparted a strong tone to the general market. Trading, however, was aimost wholly professional, although some of the commission houses reported an increase in public buying, induced by the spectacle of continued advances in prices.

crease in public buying, induced by the spectacle of continued advances in prices.

More and more profit-taking had to be met as the session progressed. This was most noticeable in the sulphur stocks and in the tobaccos, but offerings were taken at moderate concessions in most cases, and whenever, as in midafternoon, pressure was relaxed, the advance was resumed. There were, of course, a few soft spots here and there, due entirely to conditions peculiarly affecting each, but they had no bearing on the market as a whole.

Some of the oil shares reacted on the news of the fresh gasoline price cuts, but there were recessions of greater proportions in the other groups referred to and some of the food shares had moments of considerable depression. In the main, however, the realizing operations served merely to check the general advance and failed to produce actual weakness. While these were in progress, new sections of the duce actual weakness. While these were in progress, new sections of the list were exploited successfully in sustaining bullish activity. And in the final hour this exploitation extended beyond the carrier group to the independent motors and numerous miscellaneous industrials.

CHICAGO GRAIN.

Chicago, April 11 (By A. P.).—Blizzard reports from Alberta and Sazkatchewan, Canada, emphasizing news for interference with spring crop seeding had a bullish effect today on wheat at the time, however, May and July wheat touched a new low-price record for the season. Closing quotations on wheat were irregular at 3½ cent net decline to ½ cent advance, with corn 3½ cent to 1½ cents down, oats unchanged to 3½ cent to 15½ cents down, oats unchanged to 3½ cent to 15½ cents loss to 10 cents gain.

A decrease of 1,127,000 bushels in the United States wheat visible supply total tended to ald rallies in wheat during the final half-hour. On the other hand, crop comments from domestic winter wheat territory were generally favorable except from western Kansas, and had much to do with a selling drift which about mid-day forced a transient but rather sharp seback. The downturn, however, failed to display the form that the control of the canadian of the price of the spring wheat has yet been sown. A GED salary whips topped by wise old baseball heads, and the money wings of impatient youth anxious for a first taste of major league glory, quivered alike today as the hammer lifted on the gong to announce the opening of another baseball season.

Pennant-winning predictions were tabled for future reference, all official statements were in and all that remained of the preliminaries was to stage a few parades and toss out the first ball on eight major league battle-fields.

But Mr. Fan, fed up on the "dope," was prepared to perch in the bleachers and figure it all out for himself.

His "show-ine" attitude, an annual skepticism, brought his critical gaze to the aged legs of Ty Cobb, Eddie Collins and Zach Wheat, novitiates gathered in the Philadelphia fold to add the punch experts believe will bring the American league flag to the Athletics in September.

Last year the Yanks were picked to wander in the gloom of the second division because of a kid infield that could hit, but wasn't expected to do so well on ground balls, and a pitching staff that was canny, but ancient as pitching staff that was canny, but ancient as pitching ataffs go.

But the 'punch' of the Babe and his mates pulled the club through. Now, although the kids of the infield are veterans, another year has been adied to the arms of Herb Pennock, Bob Shawkey, Urban Shocker, Dutch Reuther and Waite Hoyt. Ruth, however, again may deliver the deciding blows.

### WASHINGTON'S STARS PRIMED FOR FIRST GAME OF SEASON

Pegler Questions Importance of Regular Season-Discounts Hornsby as Rival of Babe Ruth in New York.

BY WESTBROOK PEGLER,

By WESTBROOK PEGLER.

We Work, April 11.—The summer phase of the great national game will commence Tuesday, but it is not quite clear any more whether this is the principal or the secondary phase. In comparatively olden times when the New York clubs trained at Asbury Park, N. J., and some of the middle Western teams were taken down to French Lick Springs, Ind., for a couple weeks, spring training was definitely intended as a work of preparation for the summer season.

summer season.

Indeed, some of the proprietors looked upon even this modest travel as an affectation and held to the idea that a natural ball player, like a natural prize ighter, needed no more than a shave and a T-bone steak or two T-bones, put him in physical shape and men humor to play his best.

This year, the athletes are beginning the so-called regular season with five weeks of baseball and two weeks, more or less, of travel behind them. So you might reasonably ask whether they are now beginning, to train for the next training trip.

sonably ask whether they are now beginning to train for the next training trip.

All hardship is comparative. Mr. One-Eyed Connelly, who always travels on a train, never in one, would scoff at the sufferings of a ballplayer who had put in fourteen nights on the Pullmans and developed callouses on his dome, or nut from being dashed against the head boards of his berth in crash stops at the way stations. He would stops at the are fined way at the sleep less statisticians who counted thirty stops in one overnight jump in the training zone.

Still, here are baseball players and managers, particularly among the elders, who believe spring training has been over-emphasized. Ed Roush, of the Giants, seems to be the leader of this thought. Mr. Roush has contrived to create an argument about his salary and keep out of the training camps every year but two in the last decade or so. This may be the reason that he plays ball so well at his advanced age.

Although Rogers Hornsby has had his name and photographs in the papers much more than Babe Ruth this spring. Ruth will remain the great man of baseball in New York.

Hornsby's publicity will draw a second way the reason and the reason so by exhorting the athletes to play ball.

Hornsby's publicity will draw a great many customers and the return on this advertising will soon relmburse the National league proprietors for their pro rata contribution to the purse that redeemed his shares in the St. Louis club.

But Ruth is of New York now. He built the Yankee stadium, he dedicated it with a home run and he even spenia day in one of the local cages under sentence for speeding in his automobile

# Pilot of Nats Returns to Lineup

Plays Despite Injured Finger; Harriss on Hill for Boston.

Powerful Outfield Is Carried by Red Sox: Nats Favored.

By FRANK H. YOUNG.

By FRANK H. YOUNG.

WHEN the Washington team takes the field against the Boston Red Sox this afternoon in its 1927 inaugural game, except for the fact a new color scheme has been used in making the uniforms the outfit will greatly resemble the one which ended the 1926 season. Ever since Manager Harris was injured, there has been doubt that he would be able to take his place at second base when his team started the pennant race.

Bucky's decision to return to the line-up was made at the "eleventh hour" last night, following a severe test to which his injured finger was put in yesterday morning's workout and efter the clup physician had given

test to which his injured finger was put in yesterday morning's workout and after the club physician had given the digit a long baking in the aftermoon. Another treatment is scheduled for noon today, after which the young Nat pilot declares he will be ready to step out there on the 'diamond and give his team his best.

There has been considerable secrety regarding the extent of Harris' injury, it now developing that the finger actually has been broken in two places. The accident occurred in the game March 21 with the Cardinals at Avon park when Bucky, in attempting to relay a fast return from the outfield by Goslin, closed his hands too soon and the ball hit him on the index finger of his right hand.

Presumably in order to keep Harris from worrying too much, announcement was madet that the digit was not broken but, as matters turned out, this misinformation did more harm than good and actually retarded Bucky's return to the game.

The finger was placed in a steel splint. Breaks should not be moved until the bone has had time to heal but Harris, having been told no bones were broken, removed the splint without advising the physician and tried to bend and bring life into the finger. This, no doubt, prevented the bone from healing as fast as it otherwise would and might have caused it to knit together improperly.

would and might have caused it to knit together improperly.

Harris' finger is far from healed and he will be taking a chance in trying to play this afternoon, but he feels that his duty is with his team and so has thrown caution to the winds and trust to luck.

Stewart has been putting up a good game during Harris' absence and, considering Bucky's handicap, probably would do as well as will his boss in a mechanical way. But Harris is the field general of the Nats and it is in having him on hand to direct the infield play and to keep his men on their toes which makes him particularly valuable and it is in these respects that he should make his presence felt this afternoon.

Today in baseball corresponds to January 1 in the racing game. Each new year every thoroughbred at all tracks has a birthday, Irresspective of the month in which it was born. In the diamond game all players start even with the season's opener, their performances in the preceding exhibition contests—whether good or badbeing wiped off the books.

being wiped off the books.

But today the season starts in earnest. Players who have loafed along with any no alibis. Teams which did not take the pre-season contests seriously must suddenly develop winning ways, for games at the start of the reason count just as much as those near the end.

With Walter Johnson hobbling about on crutches, the honor usually given him of hurling on a season's inaugural, will be passed on to another veteran, Stanley Coveleskie, one of the few of the vanishing tribe of spitball flingers.

Opposed to him probably will be lanky "Silm" Harriss, although Manager Bill Carrigan stated last night that this was not a certainty and that he had "Jofty Harold" Wiltse and youthful Jack Russell in mind as possibilities. With the exception of Manager Harris' battered finger, all of the Nat regulars are in condition and the team will line up as it has during the last few exhibition games. Speaker, making his first appearance here as a National in a regular game, will be seen in centerfield, flanked by Goslin and Rice. a regular game, will be seen in center-field, flanked by Goslin and Rice, Judge, Harris, Myer and Bluege will make up the first line of defense, with Muddy Ruel behind the plate.

Pop Bell, with Jockey O. Bourassa satride, was installed the favorite despite the fact that Red Spider had previously defeated the Joseph Sciacaluga gelding this meeting. Jockey D. Dubois had the mount on Red Spider.

The leaders remained in this order until just before the turn into the straightaway, where Pop Bell began to slide back and Keydet, a 20-to-1 shot, took command, but for a moment only. Dubols had given Red Spider its head, and the gelding was answering.

Just able to keep in front of Keydet, Red Spider lasted, under punishment, to the wire, winning by a head. Keydet was second, with Long View nosing out Pop Bell for the third honors.

Fire Fairy annexed the opening race, in which twelve 2-year-olds competed at 4 furlongs. Jockey "Sonny" Workman, on the winner and favorite, again defeated Jockey J. To Play Tomorrow
The Stanton basketers will have their third chance, in as many years, at the District basketball title, tomorrow night when they face the Anacostia Eagles, last year's champions, in the Congress Heights auditorium in the deciding game for the independent title. Each quintet has defeated the other once, and tomorrow night's contest should be keenly fought from the opening whistle.

to use every boy in uniform in trying out various combinations.

The team has an ace in the hole in Quinn, an all-high pitcher from last year's team who carried Eastern along to the second baseball title. Furthermore Eastern always carries a punch in the high school series and, having dropped its hold on basketball laurels this winter, can be figured to wage a determined struggle to add more luster to its baseball honors.

Central, through scholastic failures, lost several players who appeared assured of regular positions on the team, but this fact doesn't mean that the outlook for the Blue and White this season necessarily is a dark one. Any high school squad, getting the twirling that Duffy. Stevens and Milburn are capable of giving it, can not be classed with the also-rans.

Central seems to have picked up a couple of promising ball players in Wolf, an outfielder, and Ault, a catcher. These two, with Simmons and Blackistone, should cause opposing pitchers pienty of worry. Central's worries are just the opposite of Western's, for Coach Kimble is banking heavily on his pitching staff to offset other weaknesses that may crop up while Ahearn is in the market for twirlers.

For either Tech or Business to cop baseball title would mean great reolding in these sohools, since it has seen many a year since this event has securred. Yet each season, one or the ther succeeds in putting a crimp in the hopes of some other team by inlicting a licking just when it hurts, but each lacks the strength to carry through the entire season. Business igh the entire season. Busines the through the entire season. Business has two veteran pitchers in Marosy and Bhreves but both Tech and Business will be using many new men this year, so the strength of each remains in doubt at this time.

The fact that no top-heavy favorite waists, augurs well for the series and explosite fans are easerly awaiting its

### SCHOOL NINES IN 2 GAMES TODAY

Gonzaga - Western G. U. Frosh-Devitt Contests Booked.

Gonzaga and Georgetown freshman nines will make their deput on the diamond today against worthy opponents. The Eye Streeters will face the strong Western team at 3 o'clock on the Monument grounds, while the Hilltop Yearlings will play hosts to Coach Sill's Devitt Prep tossers on the Georgetown diamond. The St. Alban's Laurel High clash, originally scheduled for today, was played yesterday, so that the players could go to the opening game between Washington and Boston.

At the present time, both Gonzaga and Western stand out as the most formidable and experienced nines in local scholastic ranks. Western, despite its poor showing in the game against St. Alban's, which it won only through the latter's generosity, have a potential punch and a smooth-working defense, but obviously these factors have not been developed to a sufficiently high degree, due probably to the lack of practice.

The game will mark the initial appearance of Gonzaga nine on the diamond this season, but, with several experienced veterans in the line-up, the Purple team is confident of starting the season in winning style. On the ability and effectiveness of the pitchers depends Gonzaga's success.

fectiveness of the pitchers depends
Gonzaga's success.

In this vital department Gonzaga
is weakest. The other eight positions
are ably guarded and as a unit stronger
than the usual scholastic team. McGuire, of last year's squad, will carry
the hopes of the Eye Streeters, while
Schnieder, Western's hurling ace, will
be Coach Ahern's choice.

The contest will present a colorful
array of scholastic athletic luminaries—
the flashy Stevens, the flyhawk Hilleary, the deer-footed Bozek, the heavyhitting Nolan, McVarian, Fitzgerald and
others, whose gridiron feats are a byword in school sport history.

Devitt impressed in its victory over
Eastern High last week, but will face
greater opposition when it takes the
field against the Freshmen. The Yearlings possess a powerful hitting attack
and shape up well on the defense.
Critics, who have watched the Freshin in practice, rate them as strong as
last year's Freshmen team, which went
through the season' without a defeat.

The teams will probably take the
field with the following line-ups: For
Devitt, Fisher, first base: Hartigan, second base: Garreth, shortstop; Trucks,
third base; Harris, left field; Barnette, catcher; Korson, pitcher. For
the Freshmen, Page, first base; Hickman, second base; Dunn, shortstop;
Smith or O'Connell, third base: Bonner,
Gibbons or Dougherty, left field; McCarthy, Mari or Mitchell, center field;
Reilly or Sweetman, right field; Donavan, Brinn or Simms, catcher: Cop-Reilly or Sweetman, right field; Donavan. Brinn or Simms, catcher; Coppinger, Holmes or Hughes, pitcher.

the Washington club, heading the parade of the contending teams. Meet Dates Named The Washington club will place on exhibition officially today Tristam Speaker, center fielder and slugger, ac-quired by the Nationals last winter following the Cob-Speaker-Leonard scandal which resulted in complete vindication for Cobb and Speaker.

Washington's ball club, depleted Washington's ball club, depleted by injuries, but strengthened by new additions, faces the 154-game schedule the mystery team of the league, with the experts loath to assign the club either a high or lowly place in the final standings in view of the potentialities of the group of athletes Manager Harris has gathered about himself.

Sharing the spotlight with Tris Speaker will be the men at the helm of the Bos on club, Manager Bill Carrigan and his assistant, Heinle Wagner, a great shortstop of his time.

Upon Carrigan and Wagner is placed the responsibility of reestablishing for the Boston club the popularity which it enjoyed in the days before the world war, when it was a consistent pennant winner and hailed as one of the wonder teams of baseball.

RAILROADERS SCORE.

The Southern Railway Juniors desated the Forrest A. C. yesterday, 9 to, in an interesting game, featured by the masterly twirling of Brill for the inners. Saturday and Sunday games may be arranged by calling Manager Tharles Fuches at North 3726 after 6 Carrigan is regarded as possessing the apirit of leadership that may lift the Boston club from the depths.

Opposing the Washington club this afternoon will be Bryan (Silm) Harriss, erstwhile pitcher of the Philadelphia Athletics, acquired by the Red Sox in a trade last year. Harriss, often an enigma of Washington batters, is counted the ace of the Red Sox pitching staff.

Despite the club's numerous handicaps, Manager Harris starts the season with an optimism not shared by many of the team's supporters. He counts on the powerful Washington outfield of Tris Speaker, Leon Goslin and Sam Rice to win many ball games for his club and save many more by their defensive play in the outfield.

In playing the plager the golfer should use practically the same stance as in playing the mashle and about the same swing. Jockey R. Peternell rode Hidaigo to a length and a half victory over a field of thirteen platers in the second event over a 6½-furlong route. Up with the leaders from the start, Hidaigo showed plenty of speed in the stretch and won easily from Mark Master, which had gradually improved its position.

King O'Ngill II, with Workman up, eleventh at half the distance, fairly flew in the stretch to finish third. Wild Aster, the favorite; Marcellus and Washington, prominent in the early running, were far back.

Blow Horn, 4-year-old daughter of Omar Khayyam, sprang an upset in the third race, winning by 2½ lengths from Harry Carroll. Jockey Bourassa worked his mount to the front a quarter away from the barrier and stayed ahead the entire distance. Harry Carroll was second and Jacques third. North Breeze, the public choice, was never prominent.

The Washington-owned Sun Rajah made it three straight victories this meeting in the fifth race. Jockey Josiah appeared to have much confidence in his mount and kept him restrained until straightened out for the wire, where he proved too good for Bease Gershell and Ed Pendjeton. Donetta, the property of George J. Day, and ridden by Jockey C. Wattern, lead from start to finish to take the sixth eyent from seven platers. Melly Locket, a long-shot, was second, and Harian third.

Tipperary Mary, flying the red and white of Mrs. A. Swenke's s'. ble, turned the tables on Marcedes E. in the seventh race. She raced the New Yersey stable filly into submission and won-going away. O'. ieds was second and Mercedes ... third.

The Tigers have a combined outfield wallop that is second to none and an all-round strack that will make many, a pitcher's task difficult.

Then, too, Tris Speaker's big bat will reinforce the clubs of Goose Goslin; Sam Rice, Joe Judge and Bucky Harris in the Washington fold, while Cleveland generally is placed in the "first five" among the contenders, largely because of the strength of the Indian hurling

pennant factors.

Although critics foresee Pittsburgh and New York locked in a titanic struggle from the Ltart in the National league, the bleacher "expert" likes the appearance of the Giants, for they, too, are a gang of sluggers.

Rogers Hornsby, clouting in the form that brought him championables, furnishes a marked contrast to the second-base situation in the Pirate outfit, where Hal Rhyne, a comparatively weak sticker, has the call over several rivals.

"There's base hits in that outfield," the fan muses as he runs his eye over the list of Eddie Roush, George Harper, Al Tyson, Heinie Mueller, chief among the Giant gardeners.

But, in rebuttal, the Firates have such clouters as Paul Waner and Hazen Cuyler in the outer works, plus an infield corden with stars such as Trayner and Wright, who rank well up with the Hornsby-led Giant cast.

ractice Games Give No Line on Strength of Guyon's Men.

Central Handicapped by Loss of Several Regulars.

By MIKE KELLEY,
Control High School Coach.

A TTEMPTING to forecast the results of the coming interhigh school baseball series seems to be quite a problem this season, since it promises to develop into another such series as the football campaign of last fall, for mone of the teams appear so well fortified in all the departments of the game that one may select an outstanding nine from the five schools.

Some critics of baseball form are inclined to think that on paper Western looks best because of the fact that veteran material there is more plentiful. As a mater of fact, unless Western obtains one or two reliable hurlers, one can not figure the Red and White holding any decided advantage at this time.

Coach Ahearn figures his club with hit and field with the best of hear, and no doubt the clubbing of Stevens, Hilleary, Wilson and Valker will mean something to the earn, for all of these men have lewed before the brand of pitching spected of the opposition. But litting alone will not carry the lub through the series, and ahearn a well aware of the fact. However, the writer believes Western o be one of the strong nines in the cries.

Very little can be said of Eastern, hamplons for the past two years, until ust before the opening of the series hen the regulars swing into action, reseason games mean comparatively title to Guyon, who doean't hesitate o use every boy in uniform in trying ut various combinations.

The team has an ace in the hole in uinn, an all-high pitcher from last sar's team who carried Eastern along the second baseball title. Furtherory Eastern always carries a punch in it high school series and, having opped its hold on basketball laurels its winter, can be figured to wage a termined struggle to add more luster its bascball honors.

Central, through scholastic failures, at several players who appeared astred of regular positions on the team, at this fact doean't mean that the thook for the Blue and White this uson necessarily is a dark one. Any letter in the school squad getting the twirling in

Central seems to have picked up a couple of promising ball players in Wolf, an outfielder, and Ault, a catcher. These two, with Simmons and Blackistone, should cause opposing pitchers pienty of worry. Central's worries are just the opposite of Western's, for Coach Kimble is banking heavily on his pitching staff to offset other weaknesses that may crop up while Ahearn is in the market for twirlers.

### SCHOOL NINES IN 2 GAMES TODAY

Gonzaga - Western G. U. Frosh-Devitt Contests Booked.

Gonzaga and Georgetown freahman nines will make their debut on the diamond today against worthy opponents. The Eye Streeters will face the strong Western team at 3 o'clock on the Monument grounds, while the Hilltop Yearlings will play hosts to Coach Sill's Devitt Prep tossers on the Georgetown diamond. The St. Alban's Laurel High clash, originally scheduled for today, was played yesterday, so that the players could go to the opening game between Washington and Boston.

At the present time, both Gonzaga and Western stand out as the most formidable and experienced nines in local scholastic ranks. Western, despite its poor showing in the game against St. Alban's, which it won only through the latter's generosity, have a potential punch and a smooth-working defense, but obviously these factors have not been developed to a sufficiently high degree, due probably to the lack of practice.

The game will mark the initial appearance of Gonzaga nine on the diamond this season, but, with several experienced veterans in the line-up, the Purple team is confident of starting the season in winning style. On the ability and effectiveness of the pitchers depends Gonzaga's success.

fectiveness of the pitchers depends
Genzaga's success.

In this vital department Genzaga
is weakest. The other eight positions
are ably guarded and as a unit stronger
than the usual scholastic team. McGuire, of last year's squad, will carry
the hopes of the Eye Streeters, while
Schnieder, Western's hurling ace, will
be Coach Ahern's choice.

The contest will present a colorful
array of scholastic athletic luminaries—
the flashy Stevens, the flyhawk Hilleary, the deer-footed Bozek, the heavyhitting Nolan, McVarish, Fitzgerald and
others, whose gridiron feats are a byword in school sport history.

Devitt impressed in its victory over
Eastern High last week, but will face
greater opposition when it takes the
field against the Freshmen. The Yearlings possess a powerful hitting attack
and shape up well on the defense.
Critics, who have watched the Freshi u in practice, rate them as strong as
last year's Freshmen team, which went
through the season without a defeat.

The teams will probably take the
field with the following line-ups: For
Devitt, Fisher, first base: Hartigan, second base: Garreth, shortstop; Trucks,
third base: Harris, left field; Bastable,
center field; Bilkovic, right field; Burnette, catcher; Korson, pitcher. For
the Freshmen, Page, first base: Hickman, second base; Dunn, shortstop;
Smith or O'Connell, third base; Bonner,
Gibbons or Doughetty, left field; McCarthy, Mari or Mitchell, center field;
Reilly or Sweetman, right field; Donavan, Brinn or Bimms, catcher; Coppinger, Holmes or Hughes, pitcher.

scholastic fans are eagerly awaiting its opening, after a long lapse in interhigh athletic activity.

District Commissioners Proctor L. Dougherty and Sidney P. Taliaferro with President Clark the Washington club, heading the pa rade of the contending teams.

The Washington club will place on exhibition officially today Tristam Speaker, center fielder and slugger, ac-quired by the Nationals last winter following the Cob-Speaker-Leonard scandal which resulted in complete vindication for Cobb and Speaker.

Washington's ball club, depleted by injuries, but strengthened by new additions, faces the 154-game schedule the mystery team of the league, with the experts loath to assign the club either a high or lowly place in the final standings in view of the potentialities of the group of athletes Manager Harris has gathered about himself.

Sharing the spotlight with Tris
Speaker will be the men at the helm
of the Bosbon dub, Manager Bill Carrigan and his assistant, Heinie Wagner, a great shortstop of his time.

Upon Carrigan and Wagner is placed
the responsibility of reestablishing for
the Boston club the popularity which
it enjoyed in the days before the world
war, when it was a consistent pennant
winner and hailed as one of the wonder
teams of baseball.

Boston magnates and fans virtually
enticed Carrigan to come out of his retirement in Lewiston, Maine, and resume the reigns of the Red Sox, whom
he led to several pennants. Hailed as
sone of the greatest catchers of his time,
Carrigan is regarded as possessing the
spirit of lesdership that may lift the
Boston club from the depths.

Opposing the Washington club

Opposing the Washington club this afternoon will be Bryan (Slim) Harriss, erstwhile pitcher of the Philadelphia Athletics, acquired by the Red Sox in a trade last year. Harriss, often an enigma of Wash-ington batters, is counted the acc of the Red Sox pitching staff.

Despite the club's numerous handicaps, Manager Harris starts the season with an optimism not shared by many of the team's supporters. He counts on the powerful Washington outfield of Tris Speaker, Leon Goslin and Sam Rice to win many ball games for his club and save many more by their defensive play in the outfield.

By HENRY LITCHFIELD WEST.

MRS. H. A. KNOX, of the Congressional Country club and playing three times and the President of the Women's Colf Association of the District of Columbia, yesterday won the initial event this season of the organization, a miniature tournament held on the Congressional course.

In the qualifying round of six holes, there was a tie between Mrs. Knox and Mias Phyllis Keeler, each with a card of 33 for the six holes played. They led the field by three stuckes, their nearest competitors being Miss. Suasn Hacker, Mrs. J. S. De Farges and Mrs. J. M. Haynes, each with 36, the latter's score being materially increased by a 6 and an 8 on the fourth and fifth holes, when she encountered trouble all the way from the tee until the bell finally dropped in the cup. Several of the matches which followed the qualifying round were close, Mrs. B. Cirleg defeating Mrs. J. L. Feiser in a contest which went to the tenth hole, although both suffered penalty strokes. Mrs. Haynes defeated Mrs. Rose on the final green by holing out in two putts, while Mrs. Strauss also won her match from Mrs. A. W. Brown on the home green. The summary:

### Notables to Honor Thomas Jefferson

Charlottesville, Va., April 11
P.)—A general holiday will be observed at the University of Wednesday in honor of the office of its founder, Thomas Jefferson, whose 184th birthday anniversary will be celebrated with elaborate ceremonies. The exercises will last all day and will be attended by many of thom's notables. First there an academic procession on the historic lawn at the university, whose buildings were constructed under the supervision of Jefferson. Dr. Nicholai Murray Butler, president of Columbis university, New York, will deliver the founders' day address and after luncheon the acene of activities will shift to Monticello, the home of the author of the Declaration of Independence

### U. S. TO HELP MEET BIG BRITISH DEFICIT

the deficit for the current year was largely due to the general strike and the prolonged coal strike of last year. He estimated that these disturbances cost the government £32,000,000 last year and would cost £9,000,000 more in the coming budget year.

Wines produced outside the empire and containing more than 25 degree proof spirit are to be taxed 8 shillings per gallon, and those containing less are to pay 3 shillings. Corresponding rates are empire wines above and below 27 degrees are to be 4 shillings and 3 shillings. This is counted on to produce £1,280,000. The excise duty or domestic wines is to be a shilling per gallon.

by four unmasked men, who gagged her and administered a severe horse-whipping. Mrs. Beckner told the police she recognized several of her assalants.

Mrs. Beckner and E. G. Forbes were fined in the municipal court Saturday morning on statutory charges after they had been arrested together in a Twelfth street house Friday night Mrs. Beckner's husband tonight declined to permit his wife to be interviewed. Police said she was severely cut by the lash from her head to her feet.

Detective Accidentally Shot.

William Hitaffer, 33 years old, 22A Bates street northwest, a detective for the Baltimore & Ohio railroad, was soving its least street northwest, a detective for the Baltimore & Ohio railroad, was own pistol yesterday morning. Hitaffer car in the Eckington years when his postol fell from hispocket. It discharged when it struck the ground. Hitaffer was treated at Casualty hospital. His condition is not serious.

John Early was Washington's most famous leper. He was taken into custody and quarantined here in 1908. later being sent to a leprosarium in Louisiana. So far as Dr. William C. Fowler, the District health officer, could recall last night, Early has escaped and returned to Washington no less than four times.

"And I repeat he will come here this time," Dr. Fowler sald. "He usually dops in on me when he runs out of funds."

Divorce Petition Upheld. Divorce Petition Upheld.

The motion of R. Lee Makely, said to be the owner of the Makely, Motor Co. of Falls Church and the Fauquier Motor Co. of Warrenton, Va., to strike out the petition for limited divorce filed by Mrs. Ruth A. Makely, was overruled by Justice Balley in equity court. The motion to strike was based mainly on the alleged lack of jurisdiction by the court. The parties were married December 1, 1909.

PROFIT IS \$29,526,31 Largest Made Since 1922;

Official Optimistic on Mexican Situation.

RELIEF ASKED IN COURTS

disclosed in Chairman F. H. Wickett report to stockholders, made public to alight. Net profit of the company and its subsidiaries, excluding the test companies, amounted to \$29,526,350, comparied with \$27,335,997 for 1925.

Adding Pan-American proportion of the profits of the Lago companies to the eleven months ended November 30 1926, the final net profit of the combined companies totaled \$31,230,000 equivalent to \$10.75 a share on the average capital stock outstanding.

In reviewing the government suit in volving the naval station at Pearl Harbor, Hawall, the report said that the company is asking the go ernment defer action looking toward an eccounting for crude oil delivered to the company in payment for the work at Pearl Harbor until after Congress will be asked to reimburst the company for the expenditures of the Hawallan station.

Commenting on the Mexican situation, Mr. Wickett said:

"Most of the cancellations of drillingermits, which were ordered soon affaurary 1, 1927, because of the refusal of the company for comply with the nexpertoleum law, have been suspended by temporary injunction. The non-assenting foreign companies are seeking relief in the Mexican courts. Since our claim to undisturbed enjoyment of our properties finds full support in established principles of international law, for the maintenance of which our government so firmly standa, we entertain the hope of the eventual recognition of our lawful property rights.

sinking fund to make up the present year's deficit.

Explaining demands which have been made for a £40.000,000 cut in national expenditures, Mr. Churchill said to cut the fighting services by £20,000,000 would cause a panic. To cut the expenditures on education or health would cause a convulsion.

Mr. Churchill estimated that receipts for the next year from the allies and from Germany would be £25,000,000, compared with £17,500,000 last year. He also announced that a settlement agreement covering Greece's war debt was signed last Saturday.

V Fisher, executive secretary of the commission, was assigned to draft recommendations to the commission as to how much money would be needed for the work in sight and to communicate with commissions in other jurisdictions which lay similar assessments, for information as to the methods used.

The commission authorized the Capital Traction Co. to alter its plowpit at Twentieth and Calvert streets northwest, along the lines of the equipment of the Washington Railway & Electric Co.'s pit at Georgia avenue and Wastreet northwest.

Some time ago a committee was appointed by the commissioners to study means of making plowpits more safe. That body ruled that the Georgia avenue pit was as nearly model as any of which its members knew, and the public utilities commission, on its recommendation, voted to have all new pits and old ones, when repaired or renewed, made to correspond. A safety zone for passengers was authorized at the southbound carstop at the near side of Ninth and K streets northwest.

Three typical family problems were cited in pursuance with the campaign workers' daily plan to make public typical problems. They were:

No. 13. The first selecetd is that of a hard-working colored woman, deserted by her husband who beat her and for whom a warrant is out, and with four small children to support. The colored neighbors have helped her somewhat and a white doctor gives service free. She is trynig to buy the little three-room house in which the family lives. The visitor of the Associated Charittes says \$1 a day will help this woman to help herself.

No. 14. Here is a working white woman but not strong enough to do full day's work. Her employer allows her to work on an hourly schedule part time. The visitor estimates that to live and avoid complete breakdown she should have at least \$5 a week. No. 15. This is the appealing story of a boy in his teens trying to earn enough to support a sick father, a mother not strong and a little sister. The boy makes enough to feed the family of four, but not enough to pay rent also. The latter item is \$8 a week and that much must be provided from outside sources. This paper will acknowledge contributions toward any of these family budgets.

### Colored Tenants Ousted by Court

Cesar E. Casassa, who died March 8, left an estate valued at \$90,000, according to the petition for letters testamentary filed yesterday in probate court by the Union Trust Co. and the widow, Mrs. Lillian K. Casassa, executors under the will. The estate includes premises 1404 Park road northwest, and 1020-22 Fourteenth street nor hwest. The testator also is survived by his sons, Paul, Charles and Bernard, and a daughter, Marie. In response to complaints from white property owners in Bloomingdale, Justice Stafford yesterday, Issued two permanent injunction orders to prevent the use or occupancy, directly or indirectly of premises 2328 First street northwest and 141 Adams street northwest by colored persons. It was alleged that these premises had been transferred in violation of a covenant which prohibited the use or occupancy by colored persons. Thomas Murphy, jr., who died rebru-ary 25, left a nestate valued at \$80,000, according to the petition for letters of administration filed by his daughter, Rosie I. Reed.

prohibited the use or occupancy by colored persons.
One injunction declares a deed, dated November 23, 1926, purporting to convey premises 141 Adams street northwest from Isadore and Rebecca Young to Maggie Davis and Amanda Butler, void, and the defendants Davis and Butler are ordered to vacate. The other injunction declares a deed dated March 5, purporting to convey premises 2328 First street northwest from Thomas A. Grier to Henry A. and Alyce N. Cornish, void, and the defendants Cornish are ordered to vacate. Attorneys Adkins and Nesbit appeared for owners.

### LOUISIANA MARKET MERCHANTS WARNED

Must Keep Sidewalks Clear; Revocation of Permits Brings 11 to Terms. Produce merchants doing business in

the Louisiana market were warned yesterday that they would have to cease encroaching on the sidewalk space they are enjoined by police regulations to keep clear for the public.

Last week Maj. Edwin B. Hesse, superintendent of police completed.

Last week Maj. Edwin B. Hesse, superintendent of police, complained to the commissioners that he had tried in vain to hold the merchants within bounds by arrests and warnings. He submitted a list of eleven, revocation

of whose permits he recommended. The commissioners revoked the permits Saturday. Yesterday morning the eleven business men, with an attorney, were waiting to see Commissioner Sidney B. Taliaferro when he arived at his office. They said they faced financial loss by the spoiling of perishable goods they had on hand if they were not to be permitted to sell them.

After a conference the merchants were led to the office of Maj. Hesse, where they were lectured and told a repetition of the encroachment would result in permanent loss of their permits. They promised to restrict themselves to authorized space and their permits were restored.
